

TOWN OF SMYRNA RESIDENTS
NOTICE - NOTICE – NOTICE

The Town of Smyrna Water Department personnel will be flushing and flow testing fire hydrants between 7:00 a.m. and 3:30 p.m. on March 15, 16, 17, 18, and 19, 2021 weather permitting. In case of inclement weather, the flushing will be postponed until March 23, 24, 25, and 26, 2021. This is necessary to purge our water system and to provide quality water to our residents.

Customers are advised of this situation because a muddy/rusty water situation may occur shortly after this process is complete. If this does occur, simply open water faucets and/or run dishwasher or clothes washer empty through one cycle to purge the system of discolored water.

Andrew S. Haines, Town Manager
